WILLIAM A. EGAN, GOVERNOR

April 4, 1972

Mr. Lester F. Dingman
Executive Secretary
U. S. Board on Geographic Names
Room 1040, GSA Building
Washington, D. C. 20242

APR 11 1972

Lester F. Dingman
Executive Secretary
Domestic Geographic Names

Dear Mr. Dingman:

At its December 13, 1971 meeting, the Alaska State Geographic Board took action on seven name proposals submitted by Lawrence Nielsen of Creve Couer, Missouri. The following name proposals were approved.

1. Mt. Leland: This name proposal was approved on the basis that the person for whom this feature is named (O. L. Leland) made a significant contribution to Alaska.
2. Mt. Brackett: This proposal was approved, contingent upon the provision that the Board's Guidelines are met ("... person for which name is proposed is deceased.") In order to ascertain this, the Board will direct a letter to C. E. Mulvihill, Chairman of the Skagway Centennial Committee, Skagway, Alaska, who suggested this name.
3. Mt. Pullen: This name proposal was approved on the basis that the person for whom this feature is named (Mrs. Harriet Pullen) made a significant contribution to Alaska.
4. Mt. Hislop: This name proposal was approved on the same basis that Mr. Brackett was approved.
5. Mt. Service: This name proposal was approved on the basis that the person for whom the feature is named made a significant contribution to an era which is significant to Alaska and which was of international significance.
6. Mt. London: This name proposal was approved on the basis that the person for whom this feature is named made a significant contribution to Alaska.

The foregoing name proposals were approved with the provision that "Mt." be spelled out (Mount). Mount Pullen, Mount Hislop, Mount Service and Mount London are located on the Canada/Alaska Border and
